

## REQUEST FOR QUALIFICATIONS

### UC Berkeley, Wheeler/Durant Steam Pipe Replacement Project 19352N

The University of California, Berkeley is seeking a full service engineering firm or an engineering team comprising a civil engineering lead and sub consultants (minimum structural and mechanical) as required to provide overall design and development of construction documents to replace the existing steam and condensate lines in the Wheeler Tunnel. The construction value of this work is estimated to be approximately \$1,000,000.

This project will include:

- 1) Replacement of approximately 200 LF of old steam and condensate lines within a tunnel system.
- 2) Placement of approximately 275 LF each of steam and condensate lines, all to be direct buried in Campanile Way.
- 3) Modifications to 1 (e) steam manhole and installation of 1 (n) steam manhole.

The preliminary layout of the above described project is complete. The successful firm will be required to start with the current documents and develop them to 100% construction documents. They will also be required to provide construction support services.

Design will begin immediately after design firm selection. Construction bid documents will be required in August 2008.

The successful firm will be required to execute the University's Executive Design Professional Agreement, which is posted for review at <http://www.cp.berkeley.edu/ContractsAgreemnts.html#EDPA> (Executive Design Professional Agreement, version B, lump-sum).

### RESPONSE FORMAT

All firms responding to the request for qualifications must submit a Business Information Form to Facilities Services. The form is posted at [http://www.cp.berkeley.edu/BIF\\_DesignProfessional.xls](http://www.cp.berkeley.edu/BIF_DesignProfessional.xls).

At a minimum, the Statement of Qualifications should include:

- General information about your firm
- If proposing a team, general information about all firms comprising the team
- Specific experience in the kinds of work associated with this project. Identify projects, construction costs, duration and timeframe of the work, clients, references with contact phone numbers, project highlights.
- Proposed project team members, their experience in this kind of work and their resumes. Of particular interest is the utility layout experience of the proposed lead designer(s) in fully developed areas with congested existing utilities.
- We request that the responses have soft bound covers and that they are limited to about five pages plus resumes and prior project descriptions.

## RESPONSE SUBMITTAL SCHEDULE

All Statement of Qualifications for the subject project must be received at Facilities Services at the address below no later than 4:00 PM on June 20, 2008.

Facilities Services  
1936 University Ave, Room 232  
Berkeley CA 94704-7027  
Attn: Stephen Daniels

All responses must reference: Wheeler/Durant Steam Pipe Replacement, Project 19352N

## SELECTION PROCESS

A selection committee will be appointed and they will review the Statements of Qualifications to select firms for interviews. It is anticipated that the initial review will require a maximum of one week and we expect to select no more than three firms for interviews.

The firms invited to the interview will receive more technical information about the project to enable them to prepare for the interview.

We expect to select the successful firm within one week of the interview process.

The University of California is an Equal Opportunity Employer. Every effort will be made to ensure that all persons, regardless of race, religion, sex, color, and national origin have equal access to contracts and other business opportunities with the University.
